

# ART IN THE GARDEN

## Where ART meets ENGINEERING

### Bespoke Designs

If you are wondering who to trust with an unusual or high profile commission in metals and other materials, then you will find a partner in Privett who can demonstrate a range of commissions where their abilities can be readily judged.

When commissioning Privett to create a bespoke design you are engaging the passion of high skilled craftsmen to create a desirable work of art to enhance the garden being designed. Whatever your idea or concept Privett can elaborate your design creating a distinctive high quality piece of sculpture that is unique.

Tetra®,

*Key sculpture: made for Heather Appleton*

*The Elements Sculpture, Boleyn Park designed by Bella D'Arcy for*

Their Workshop nestles in the Surrey Hills Area of Outstanding Beauty where 4 craftsmen shape the interesting and beautiful pieces of garden art. Privett is owner managed by David and Fiona Dymott who take great pride in producing designs of exemplary quality with character and style

Fiona Dymott says " Privett are proud to be associated with leading designers in both architectural and landscape design professions. Working with them on large scale interior projects, public and garden sculpture providing prototypes, design and development Privett allow thoughts and concepts to become realizable designs." They do have a great ability to produce one-off designs for individual clients, as I well know (Boleyn Park); they are also extremely friendly and obliging; great to work with.

*The One World Garden for Chelmsford Borough Council at Hylands Park*

The bespoke nature of Privett's business is completed with full service of support being offered from installation through to ongoing maintenance to ensure each sculpture is retained in the best condition. "Integrating the sight and sound of water in parks, gardens and on terraces using a variety of designs and materials is a lifestyle necessity in today's modern times!" says Fiona, Inspired by nature Privett have design registered a unique collection of water features such as the Irises®, Waterlily®, Bullrushes® and Fritillaries®. "If garden accessories or elements are deemed to add interest and ambience to a garden then these designs are indeed what garden-conscious people should all own!."

Handmade in the UK these stainless designs add texture and vibrancy to a terrace, courtyard, balcony where they will surely become the topic of conversation .

**PROJECTS IN SITU:**
